

# HELP US

## **PREVENT FINANCIAL INCOMPETENCIES**

Nearly 75% of high school and college students are ill-equipped to make critical financial decisions. Young women have more difficulty than young men in finding work, and if they do, it is often lower paid and in the informal economy, in unprotected, low skilled jobs which leaves them with higher rates of unemployment, or maybe tied to traditionally unpaid, family based work.

## **IMPROVE QUALITY OF LIFE**

Adolescent girls, many on the verge of adulthood, face many challenges, and need unique tools and strengths to achieve success in life. They are often discriminated as they face diminished opportunities and choices, subject to serious emotional health risks, and even threatened by violence. Their views and concerns are often unheard.

## WHAT DO WE DO?

Provide mentorship and empowerment programs for young women globally. We serve a diverse group of girls aged 13-18 years old. The organization is open to young women from all walks of life who are interested in: Entrepreneurship, Financial Competency, Wealth Creation, and Personal Development.

## OUR MISSION

Cultivate a Safe haven for Young Women by providing wisdom, resources, and practical applications to ensure career, entrepreneurial, and life success by providing a balance between being timely by understanding the needs of our culture by preparing them for adulthood and timeless by passing on values and skills they need to flourish.

**SMALL GROUPS. GLOBAL IMPACT.**
